

Onderwerp: Kaping van die Staatsdiens-pensioenfonds

Datum 15 September 2017

Huidige verwickelinge dui op 'n tendens om die staatsdiens-pensioenfonds weer in die teiken van die Gupta stropings-beplanning te gooi. Jongste bespiegeling dui op 'n poging om Dr Matjila as uitvoerende hoof van die Openbare Beleggings Korporasie (OBK) te vervang met Brian Molefe van ESKOM faam. Die Openbare Beleggings Korporasie bestuur is die grootste belegger in Suit-Afrika met 'n fonds van R1,87 triljoen tot sy beskikking en dus 'n aantreklike trekpleister vir selfverryking en om staatsondernemings uit te borg. Sou hierdie verwickelinge waar wees, is dit 'n ernstige sein dat oorweging geskenk moet word om die OBK met 'n ander onafhanklike instansie te vervang.

Die OBK is die Raad vir Trustees (RvT) van die Pensioenfonds se beleggingsagent. Niks meer nie. Dit is 'n staatskorporasie wat 'n gevaarlike en polities-uitbuitbare situasie skep. Daar is niks wat die Raad van Trustees verhoed om ander onafhanklike beleggingsagente aan te stel nie. Dit sal baie veiliger vir die pensioenfonds wees. Die RvT bly verantwoordelik en hulle behoort aangespreek te word vir enige optrede van die OBK. Pogings deur die Staatsdienspensioenfonds Moniteringsgroep om hulle verantwoordelik te hou, het dusver misluk omdat die GEPEF onwettig weier om vrae oor beleggings te antwoord.

Subject: Hijacking of the Government Pension Fund

Date 15 September 2017

Current developments indicate that that the Government Pension Fund is again a target of Gupta raid planning. Latest speculations indicate a scheme to have Dr Matjila replaced as CEO of the Public Investment Corporation (PIC) with Brian Molefe of ESKOM infamy. The PIC is the largest investor in South Africa with an amount of R1,87 trillion to its disposal and as such a great attraction for self-enrichment and to be used a bail out for failing state owned enterprises. Should these development be true is can be seen as a serious sign that the PIC must be replaced by another independent entity.

The PIC is the Council of Trustees investment agent, nothing more. PIC is a state corporation that creates a dangerous political exploitable situation. There is nothing that prevents the Council of Trustees to appoint another independent investment agency. Such action will ensure the safety of the GEPEF. The Council of Trustees remains responsible and should be held accountable for all actions undertaken by the PIC. Attempts to date by the GEPEF Monitoring Group to hold the GEPEF to account have failed because the GEPEF illegally refuse to answer questions pertaining to investments.
