The Editor  
AMAGP News Letters

Sir

As a member of AMAGP I remain up to date on most activities regarding the GEPF and possible miss-appropriation of our funds.

On reading your Newsletter No 8 of 2018, I was delighted that the some media issues were highlighted. Even if I had seen and read them when initially released, it was gratifying to re-read them and again "get quite emotional" about the possible consequences which could lead from each of these situations.

The comments you made after each article reflects my sentiments as well so I am glad to find that I am not alone in these emotions.

I wish to congratulate you on providing a wide spectrum of information to our readers and personally the Questions and Answers from the National Assembly Finance Standing Committee was the highlight of the News Letter. I had not seen this previously and I fully agree that the response was most disappointing and as indicated without substance.

I am sure that the pressure that the AMAGP can put on many spheres of Government and the GEPF BOT should help to make such decisions in better benefit to the fund and us as both pensioners and tax payers.

I would like to thank you for your effort in compiling the newsletters and you can be sure that I look forward to receiving and reading all subsequence issue.

I wish you the rest of active team at the AMAGP well and that our numbers continue to increase so that we can and will make a difference into the future.

Thanking You

Gerard Assink
